

MORTAR HAND TOOL FOR LAYING TILE

[1] BE IT KNOWN THAT I, Amen Dhyllon, have invented a new, original and ornamental design for Mortar Hand Tool used for laying mortar striping for tiles of which is used as a foundation forming tool having the blade perpendicular to a scale, of which the following is a specification, reference being made to the accompanying drawings, forming a part thereof.

DESCRIPTION OF DRAWINGS

[2] Figure 1 is a black and white photograph of a diagrammatic perspective view of the mortar tool of the embodiments of the present invention;

[3] Figure 2 is a black and white photograph of a diagrammatic front elevational view of the mortar tool of the embodiments of the present invention shown in Figure 1;

[4] Figure 3 is a black and white photograph of a diagrammatic left side end view of the mortar tool of the embodiments of the present invention shown in Figure 1;

[5] Figure 4 is a black and white photograph of a diagrammatic right side end view of the mortar tool of the embodiments of the present invention shown in Figure 1;

[6] Figure 5 is a black and white photograph of a diagrammatic bottom plan view of the mortar tool of the embodiments of the present invention shown in Figure 1;

[7] Figure 6 is a black and white photograph of a diagrammatic top plan view of the mortar tool of the embodiments of the present invention shown in Figure 1; and

[8] Figure 7 is a black and white photograph of a diagrammatic rear elevational view of the mortar tool of the embodiments of the present invention shown in Figure 1.

What is claimed is:

The ornamental design for a Mortar Hand Tool used for laying mortar striping for tiles, as shown and described.
